IN A PIT OF DEATH FIVE FIREMEN DIE

CHICAGO HEROES PERISH FIGHTING FLAMES.

Buried Under Falling Walls—Girl Leaps From the Burning Building to Her Death—Many Others Injured—Financial Loss Will Reach \$100,000 With Insurance of \$90,000

Chicago, Nov. 23.—Five persons were killed and eight injured, two of them fatally, at a fire which destroyed the Exchange building, Van Buren and Franklin streets, yesterday morning. The dead are:

MARTIN SHERRICK, pipeman, engine company 2.

JOHN DOWN, pipeman, engine company 2.

JOHN PRENDERGAST, pipeman, engine company 2.

KITTIE LANDGRAF, employe A Stein & Co.'s garter factory.

LIEUTENANT PATRICK O'DONNELL, of engine company 2.

Fatally injured:

BERNSTEIN, JACOB, 16 years old, fell from the fifth story window; both legs and right arm broken; taken to the county hospital.

BRUNHEIMER, JOHN, fell from the third story, and was crushed.

M'NALLY, DANIEL, driver of engine company No. 2, buried in the ruins, but rescued.

NEIL HARRY, 17 years old, fell from the fourth story, and was crushed.

TURNER, MRS. NELLIE, jumped from a fourth story window and sustained fatal injuries.

The fire was one of the most difficult to handle that the firemen have had to contend with in recent years. It was attended by a series of disasters. The first happened at 9 o'clock, a few moments after the discovery of the fire, when a number of employes in the building jumped from windows to save their lives. Four hours later, at 1 o'clock after the flames had been nearly extinguished, a safe on the fifth floor fell to the first, carrying the intervening floors with it. Five firemen who were at work on the second floor were buried in the ruins. Four of them were killed. The loss of property amounted to \$375,000.

Hanging between life and death, a score or more of shrieking, screaming girls clung to the window casements of the building soon after the fire broke out, at 9 o'clock. One of the girls, driven to frenzy by the choking, blinding smoke, leaped in midair to what appeared certain death. A fireman's strong arm extended from the fire escape was almost wrenched from its socket as he caught the flying human figure.

A second later another girl threw herself headlong. But no protecting arm saved her, and, turning over and over, she fell to the sidewalk below, a mangled, bleeding mass of humanity. The dead girl was:

KITTIE LANDGRAF.

In addition to this fatal case there are living injured the following:

David McNally, driver engine company 2.

Hattie Brennan, overcome by smoke; will recover.

Edna Ritter, overcome by smoke; will recover.

Mary Pink, overcome by smoke; will recover.

Hattie Ray, overcome by smoke; will recover; taken home.

Nellie Feeney, prostrated by smoke; will recover; taken home.

Olga Keller, right arm and leg injured; taken home; will recover.

Susie Keidel, fell on ladder; injured internally; will recover; taken home.

Ellen Kippard, prostrated by smoke; taken home; will recover.

Jo Chenery, janitor; head injured and hands burned.

The burned building is a seven-story brick in the form of an "L," with fronts at 276 and 278 Franklin and 215 and 217 Van Buren street. The first alarm, turned in at 9:15, was immediately followed by a "4-11," which brought twenty-three engines to the scene. The firemen first turned their attention to the terrified girls employed by the garter factory on the fourth floor of the buildings' Van Buren street "L." These crowded to the windows and seemed determined to throw themselves to the pavement before ladders could be put up to effect their rescue. No sooner had the ladder touched the building than a fireman started to mount it. When he reached the second section of the extension ladder his weight caused it to slip back, or shorten. This brought its top some four or five feet below the sill of the fourth-story window.

Evidently crowded from within and certainly frenzied by fear, Nellie Turner, Kittie Landgraf and Harry Neil made a wild attempt to let themselves down to where they could touch the top rung of the ladder with their feet. In this attempt they slipped and fell headlong to the pavement. That all were not picked up dead was a marvel to the firemen, police and spectators. The rescue of Olga Keller, who jumped and was caught by Captain Hermanson, was one of the most thrilling scenes of the hour.

The building, erected four years ago by Kuh, Nathan & Fischer, cost \$140,000. Upon this Abraham Kuh said that \$90,000 insurance is carried. Of the total insurance and valuation of stocks in the office end of the building fronting on Van Buren street, at No. 215, Mr. Kuh estimated that \$100,000 would cover the stocks. The portion of the building fronting on Franklin street, at

276 and 278, was occupied by large firms which carried heavy stocks and Mr. Kuh estimated the valuation at something near \$250,000. For the most part he said that this was insured.

THE NATIONAL TREASURY.

Statement of Revenues and Expenditures for the Year.

Washington, Nov. 23.—D. N. Morgan, treasurer of the United States, in his annual report on the operations and condition of the treasury, says that the net ordinary revenues of the government for the fiscal year ended June 30, 1895, were \$313,390,075, an increase of \$15,668,055 as compared with the year before; net ordinary expenditures, \$356,195,298, a decrease of \$11,328,981. Including the public debt, the total receipts on all accounts were \$720,516,625, and the expenditures \$710,472,157. A further sum of \$31,157,700 was deposited in the treasury prior to the end of June on account of a purchase of gold coin to maintain the reserve, but was not formally covered in, and therefore does not appear in the accounts of the current fiscal year.

At the close of business June 30, 1894, there stood charged to the treasurer on the books of the department a balance of \$763,565,540. Adding to this the receipts of the year from all sources gives \$1,484,082,165 as the total to be accounted for, and deducting the expenditures leaves a balance of \$773,610,008 on June 30, 1895.

In addition to this accountability to the department, the treasurer had liabilities on other accounts which brought the totals to \$804,854,753 and \$842,148,189 on the two dates respectively. After setting aside the amounts treated as unavailable, the principal of which, \$28,101,644, deposited with the states under the law of 1836, there remained the sum of \$775,310,559 in 1894, and the sum of \$812,627,722 in 1895, for which there were live assets in the several offices of the treasury and mint and in the depository banks. Of these balances the sums of \$616,155,820 and \$579,247,863 respectively were on deposit for the redemption of outstanding certificates and treasury notes, leaving \$159,154,739 and \$233,379,859 respectively as the balance on account of the general fund.

The amount of national bank notes received for redemption was nearly \$87,000,000, of which \$35,000,000 fit for circulation were returned to the banks of issue. Inclusive of charges for transportation, salaries, stationery, and contingent expenses, the total cost of the redemptions for the year was \$100,352, which have been assessed upon the banks at the rate of \$1.15 per \$1,000 of notes redeemed. The deposits on account of the reduction or retirement of national bank circulation amounted during the year to \$12,056,172, and the redemptions on the same account to \$13,068,639.

Coal Miners to Talk of Machines.

Brazil, Ind., Nov. 23.—A mass meeting of the miners of the block coal fields is called to meet at the court house in this city to-day. The meeting is called about by the strike of the miners of the No. 1 shaft of the Brazil Block Coal company, who went out recently because the company stopped the system of paying \$1.75 a day and offered 25 cents a ton. This is the first block coal mine to put in machines for mining coal, and the miners fear that they will adopt them generally throughout the district. The object of the meeting is to decide upon a scale for machine mining in the block coal district. It is believed by some that the matter will be settled.

"It begins to be a decisive fact that exports are small, partly because stocks abroad are heavy and partly because the manufacturer does not find a market for the usual quantity of goods, the British being especially embarrassed.

"In this country, the cotton manufacture has fared better than most others, escaping an excessive rise and the resulting decline. While some prices were marked too high when cotton was above 9 cents, and are now lower, most goods are held at quoted prices, and the mills generally have orders to cover work into next year, but it is becoming a question whether retail distribution has kept pace with manufacturers' orders or with sales to retailers. The opening of Clay worsted by two leading mills at advanced prices has not yet been followed by others.

"Iron and steel products are lower, averaging 1 per cent for the week and 7 per cent from the highest. Bessemer, anthracite No. 1, and bar are quoted lower, while sales below quotations are frequent. There is competition for orders, most works having little ahead, and new business is remarkably small.

"The demand for cheap boots and shoes is a shade better, but many shops are idle or working part of the time, and buyers generally hold off, although considerable reductions are now offered

by manufacturers on men's split shoes and on grain, oil-grain, glove, and buff polish and polka shoes. Shipments for the month are 22.7 per cent less than last year. Leather is weaker, though only one class is quoted lower, but hides at Chicago have again declined about 2 per cent, and average relatively lower now than leather and shoes.

"Failures for the week have been

320 in the United States, against 322 last year, and 42 in Canada, against 31 last year."

Turfmen in a Gun Fight.

Lexington, Ky., Nov. 23.—George Cadwallader, the well-known turfman of Milldale, Ky., attempted to shoot Joe Chinn, a Lexington turfman, in the lobby of the Phoenix hotel last night. Chinn saw him reach for his gun, and knocked him down, causing the blood to flow freely from his nose. He then struck Cadwallader under the left eye, laying open the skin two inches. A bystander pulled Chinn off. As Cadwallader got up again he tried to shoot, but Chinn got away. He armed himself and returned to the hotel in a few minutes, but the police arrested Cadwallader, as he was threatening to kill Chinn, and the latter's friends hustled him off to his home.

St. Louis Wants the Convention.

St. Louis, Mo., Nov. 23.—The business men's league of St. Louis yesterday issued an address to members of the national republican committee notifying them that a committee of twenty-five citizens of this city would attend the meeting at Washington, Dec. 10, with a guarantee for all expenses connected with the national convention.

The league claims to have pledges from two-thirds of the members of the committee, with enough second choice promises from among San Francisco advocates to secure the convention for St. Louis.

Democratic Senatorial Program.

Washington, D. C., Nov. 23.—The Democratic Senatorial steering committee met for three hours Wednesday and discussed the situation of the party and the policy to be pursued during the coming session. While the argument was by no means concluded a general understanding was reached to await the action of the Republicans and Populists. Most of the committee was convinced that the Republicans could do little until the Utah senators were sworn in.

One Seminary Gives In.

Cincinnati, O., Nov. 23.—The Commercial Gazette states on high authority that the trustees and directors of the Presbyterian Western Theological Seminary met this week in secret session at Allegheny City, Pa., and accepted the proposition that the Presbyterian General Assembly shall have final control of theological seminaries and veto power after the election of professors, instructors and trustees, and that all such elections to be legal must have the approval of the general assembly.

WELCOMED AT CHICAGO.

Enthusiastic Greeting of Labor Unions to Eugene V. Debs.

Chicago, Nov. 23.—Eugene V. Debs is a free man. The labor unions of Chicago and its suburbs turned out to give him a welcome which must have repaid him for part of the discomforts which he has suffered.

A monster meeting was held in Battery D last night to welcome Debs back to Chicago. It was an expression of what the labor party thinks of the imprisonment of its leader. A crowd of 6,000 men and women filled the big hall to the doors, while hundreds of others,

Twelve Thousand Dollars In Cash to Be Paid at Once and the Account Called Square—Arrangement Gives Satisfaction—Wisconsin Sabbath Association.

Manitowoc, Wis., Nov. 23.—The county board today effected a settlement with the bondsmen of T. O. Shove banking company which failed in April 1892. The bank was the depository of the county and had \$51,232 of county money at the time the crash came. Of this amount the county has received \$12,630,78 and will receive about 5 per cent more. The amount still due the county was \$38,443.07 with interest for which the bondsmen were liable. This claim was settled today for twelve thousand dollars to be paid in cash at once. The settlement meets with general satisfaction here.

Wisconsin Sabbath Association.

Fond du Lac, Wis., Nov. 23.—The Wisconsin Sabbath association met here in annual convention yesterday. Prominent ministers representing all ecclesiastical bodies from the various cities of the state were present. In his annual address Rev. E. W. White of Milwaukee, president of the association, said that the association entertained liberal views in so far that it was not at all in sympathy with the puritan Sabbath.

Wisconsin Legislature to Meet.

Milwaukee, Wis., Nov. 23.—Gov. Upman will call a special session of the legislature to reassemble the state according to the Turner plan and will be renominated next year, according to the latest rumor. This is the interesting gossip that follows the gathering here Thursday night of Republicans from the four quarters of the state.

TO MEET AT ROCHESTER.

Knights of Labor Finish Their Business and Adjourn.

Washington, Nov. 23.—The Knights of Labor general assembly yesterday selected Rochester, N. Y., as the place for holding its next annual meeting.

The assembly adopted the plan limiting the service of general officers of the order, the master workman and members of the executive board, secretary, and treasurer, to two successive terms. These changes must be referred to district assemblies for approval. Another important change under consideration is for the election of two members of the general executive board every two years, instead of having all four chosen at one time. The general assembly endorsed the boycott of national bank notes ordered by Mr. Sovereign last spring.

O. E. Woodbury acted as chairman of the meeting. In his remarks he said that they were present to exercise the rights of free assembly and free speech granted them by the constitution.

"Welcome home one of the greatest labor leaders of the world, and to protest against the sending of Federal troops from the state without the request of the governor.

The first speaker introduced was Henry D. Lloyd. He claimed Debs was a martyr to and the first rebel against government by injunction. All difficulty could be overcome by making the people the owners of the railroads.

Thomas J. Morgan then came forward and read the telegrams which had been received from outside sympathizers. He said that this jubilee was not local; it was national. Telegrams were received from Cleveland, Philadelphia, San Francisco, Atlanta, St. Louis, Hamilton, Ont.; Washington, D. C., and New York. Personal messages from General Coxey, P. J. McGuire, James O'Connor, and General John B. Weaver were also read.

The loud calls for Debs were somewhat appeased by the introduction of ex-Governor Waite of Colorado. He said in part: "I am here to lay my tribute of respect at the feet of this martyr of labor. His imprisonment is the greatest act of judicial tyranny recorded in history. If the railroads existed according to the constitution the exercise of all their powers would not endanger the privileges of the people. The government ownership of the railroads is the only solution of the trouble."

E. V. Debs was greeted with tremendous applause as he advanced to the front of the platform. His speech was a bitter arraignment of the policy of the railroads and of the Federal government for their action during the strike. Of his future policy he said: "I am charged with conspiracy, and if guilty I should go to the penitentiary. All I ask is a fair trial and no favor. If the counsel for the government, alias the railroads, have been correctly quoted in the press, the case against me and my colleagues is not to be pressed, as they do not wish to appear in the light of persecuting the defendants. I repulse with scorn their professed mercy; simply justice is the demand. I am not disposed to shrink from the fullest responsibility for my acts. I have had time for meditation and reflection, and I have no hesitancy in declaring that under the same circumstances I would pursue precisely the same policy. So far as my acts are concerned, I have neither apology nor regret."

"To return to the original question and to my immediate future I will say that from Chicago I shall go to Terre Haute, my home and the headquarters of the American Railway union, where I understand a reception of some character has been prepared for me and where I shall speak tomorrow night. After that I shall spend several months looking over the business of my office as president of the American Railway union. That finished I shall be at liberty for some time, and the first invitation I have accepted to leave home is to address the working men of Milwaukee in a Kentucky courtroom.

Georgetown, Ky., Nov. 23.—Secretary of State John W. Headley created a small panic in a courtroom here yesterday by attempting to stab Attorney John Brand. The men were on opposite sides in a case on trial, and quarreled. After a little exchange of words, Headley suddenly drew a knife and made several rapid motions not provided for in the briefs. Brand did a bit of clever dodging and escaped unharmed. Court attaches disarmed the belligerent secretary of State and the case went on.

National Evangelists Meet.

Baltimore, Md., Nov. 23.—The fifth annual convention of the National City Evangelization union of the Methodist Episcopal church assembled for business yesterday at the Madison Avenue Methodist church. Papers were read by many men of prominence in evangelical work.

THE RAILS ARE LAID FOR THE NEW LINE

THE STEEL IS DOWN AS FAR AS CAMBRIDGE.

Work Will Continue Until Cold Weather Stops It—Johnstown Hogs That Had the Cholera Examined—Footville Boy Hurt By a Fall—County News.

C. W. Slattery, with a force of 70 men, completed laying the steel on the Chicago & Lake Superior Railroad. The track is laid at this writing to within a mile of Cambridge and the contractors expect to reach the corporation limit—as far as the grade is completed—by this evening. The men are ballasting and completing the road as far as the steel is laid. Another gang of men and teams under the foremanship of John McRae, are making an eight-foot cut and grading the depot grounds. This work will be completed some time next week. The work on the bridge will be commenced just as soon as the timbers can be placed on the ground. It is expected to have the bridge completed and track laid to the depot in Cambridge by Thanksgiving. Surveyors have completed their permanent survey as far southeast as Fort Atkinson, and are figuring the cost of grading. The general contractor, George A. Welsh, says there will be work as long as the weather will permit them to work to any advantage, and expect to grade and lay track as far as the lake before the cold weather stops them.

CHOLERA AT JOHNSTOWN CENTER

Sick Hogs Are Found to Have Diseased Lungs—Other News.

Johnstown Center, Nov. 22—Hog cholera is on the increase, several farmers having lost their entire droves. Some hogs which have died with supposed cholera and afterwards dissected, their lungs were found to be alive with a very slim worm, some large enough to be discernible to the naked eye. In other cases they could be found only with the aid of a magnifying glass. Mr. and Mrs. O. B. Hall are rejoicing over the safe arrival of a daughter. A foot ball team has been organized here and expect to play their first game about Thanksgiving. The creamery has just paid up dividends for October milk. The average per hundred paid was ninety cents, nineteen cents per pound having been paid the patrons for butter. The milk from the herd of Jerseys belonging to Henry Boone paid him \$1.15 per hundred. A gentleman who visited the creamery a few days ago to negotiate for its purchase pronounced it the finest arranged establishment of the kind in the state.

The remains of Charles Darling of Janesville, were brought here for interment, Monday. Mr. Darling was the father of H. C. Darling of this town, and was comparatively a stranger here, having come to this state only two years ago. Dr. Will C. Clark, V. S., while on his way for a short visit to his parents, stopped here a few minutes last Thursday. Will reports a good practice at Beaver Dam, where he is located. Mrs. Frank Randall has had a fine monument erected on her cemetery lot. Gene Brotherton, of Milton, was here last Sunday, and reports business good with him. J. B. Waters, of Whitewater, visited his daughter here last Monday.

FOOTVILLE LAD PAINFULLY HURT

Fell From a Window and Broke a Leg—Other News.

Footville, Nov. 22—Mrs. Coryell's youngest son met with quite an accident Monday afternoon. While at Clark Popple's playing, he fell from a second story window and fractured the right leg just above the ankle. Dr. Lacy was called to attend his injuries. John Fox is very sick with pneumonia, and had been improving until Monday, when a had a relapse caused from taking cold. The Christian church has engaged Elder Spencer of Chicago, to preach for them the coming year, Elder Goodacre having resigned. W. J. Owen has so far recovered from the grip that he is able to be out again. Grace Braden of Chicago, spent Sunday at the home of Mr. H. Edgerton. Miss Gertie Hemmingway has been sewing in this village during the past week. The banquet given by the Modern Woodmen of Footville and Magnolia last week was a success. An excellent supper was served by Mrs. F. P. Wells. Miss Hettie Dantz is confined to the house with liver trouble. Dr. W. H. Palmer was called to see Nellie Howe last Saturday she being in a critical condition. Mrs. Webb Owen

Mr. Carlson, having purchased the Center creamery, now has four in possession which will keep him rather busy. Forest Worthing has bought T. Ogden's interest in the drill, and the company will be known as Ogden & Worthing. They have a new machine. Mr. and Mrs. John Fox were pleased with the arrival of a little daughter. Mother and child are both doing well. Mrs. Hatten spent last week at the bed side of Miss Nellie Howe and visiting friends in Footville. Ladies Aid Society at John Honesetts Thursday afternoon.

Smithton News Notes

Smithton, Nov. 25—Benjamin Aley an old time resident is visiting friends in this vicinity. Mrs. Henry Chamberlain is very sick. She is attended by Dr. Montgomery of Clinton. Miss Pearl Smith was unable to attend school Tuesday and Wednesday it being too stormy to drive. Mrs. Brotherton of Johnstown is staying with Mrs. John Smith for a time. Mr. Dayton of Summerill was seen in the neighborhood Sunday afternoon. Don't forget that the "Chicago Rivals" one of the best lady quartettes in the country will give an entertainment at Emerald Grove, Tuesday evening, Nov. 26. This is a company of unusual talent and the price is right, season tickets two entertainments seventy cents. Single admission fifty cents.

LEAF TRADE LIVELY THE DEALERS SAY

LOCAL TOBACCO MARKET IS STILL ACTIVE.

Many Sales in the Vicinity of Orfordville—Some Buyers Are Disappointed in the Way the New Crop Has "Panned Out"—State of the Business At Edgerton.

The local tobacco market continues to display a moderate amount of activity, and several Janesville dealers, The Leaf says, have purchased liberally of old goods. L. B. Carle received several carloads of '93 and '94 at Edgerton and other points; George H. Rummel purchased the Thomas Purves packing of '94 consisting of 300 cases, at Beloit; F. S. Baines purchased 171 cases of '94 at Orfordville and 30 cases of '94 of Soverhill & Porter, and S. B. Heddles bought a car of '93 and '94, some of the latter being in the bundle. Mr. Heddles sold 10 cases of '92.

"We understand that H. N. Hesgard has been buying large lots of '93 and '94 near Orford, for Henry Miller, of Milwaukee." The Leaf continues: "G. A. Goff, of Evansville, has been buying several lots of '95 around Orford, paying from 6 to 8 cents in the bundle."

Many Sales About Orford.

The following sales from the vicinity of Orford have been reported:

O. G. Rohn, 5 acres '95 at 7 & 1 cents; Stone Liston, 5 acres '95 at 8 & 1 cents; Nels Fosley, 5 acres '95 at 7 1/2 & 1 cents; Andrew Quee 8 acres '95 at 7 & 1 cents; Harvey Ehrdahl 5 acres '95 at 7 & 1 cents; A. C. Ingraham, 12 cases '93 at 5 1/2 cents and 4 acres '94 5 cents in bundle; H. P. Helgeson, 7 cases '93 at 5 cents; Orson Borson 12 cases '94 at 6 cents.

Three monstrous hogs were brought in town yesterday by H. J. Bullock. They attracted a great deal of attention at Pitcher's scales on South Main street where they were weighed. The trio tipped the beam at exactly 2,265 pounds or an average of 755 pounds each.

Mr. Bullock says they were all fattened on old corn. The porkers were purchased by George Scarcliff, the west side butcher, he paying the snug little sum of \$84.93 for them. There is little doubt but what they were the heaviest hogs that have been brought to Janesville in many a day.

A Store Full of Cloaks.

All the patterns that will be worn this season in the cities will be shown at the Lowell Annex cloak sale Saturday, Monday and Tuesday. And the prices!

It's Too Low

Clothing in price is so low at Winslow's that's a shame to sell it at the present figures. The public is saving some money on clothing and overcoats. F. S. Winslow.

Are the "Henneys" Among Sleighs.

What the Henney is to buggies the Sturtevant & Larabee is to sleighs. We sell 'em and have the very latest 1895-6 patterns. F. A. Taylor & Co.

Oh, Mrs. Foss.

Her famous sad irons we sell at 60 cents three in the set all nickel plated. They are almost gone too. Lowell Hardware Co.

COMPANY GUARD AGAINST FIRE

St. Paul Officials Get New Rules from the General Offices.

Local officials of the St. Paul road have received notice that in the future all heating and lighting appliances in all cars and depots must be frequently examined, and that lumber must not be piled within one hundred feet of any building. These extra precautions are being taken for fear of fire. The notice further states that gasoline and oil stoves are prohibited, and that fifty pounds of salt must be placed in each water barrel, to keep the water from freezing, where such barrels are kept for fire purposes. Local officials are not surprised at these instructions, for numerous fires along the road have been caused by disregarding these rules.

GOT \$84.93 FOR THREE BIG HOGS

H. J. Bullock Raises Porkers that Average 755 Pounds Each.

Three monstrous hogs were brought in town yesterday by H. J. Bullock. They attracted a great deal of attention at Pitcher's scales on South Main street where they were weighed.

The trio tipped the beam at exactly 2,265 pounds or an average of 755 pounds each. The big hogs were two year olds and Mr. Bullock says they were all fattened on old corn. The porkers were purchased by George Scarcliff, the west side butcher, he paying the snug little sum of \$84.93 for them. There is little doubt but what they were the heaviest hogs that have been brought to Janesville in many a day.

Other Social Notes

HIZZONER Whist club met with Mayor and Mrs. Frank S. Baines last evening, and as usual all had a jolly good time.

MR. and MRS. E. LEAVITT entertained a number of friends at their Madison street home last evening. Supper was served at 6:30 after which an hour or two was spent at the card tables.

MRS. L. S. HILLABRANDT was agreeably surprised Thursday evening. It was her birthday and her daughters presented her with two chairs and had a house full of friends to help make the occasion memorable. Music and games passed the time away and luncheon was served.

FRIENDS WILL EAT UP THE COMPANY

Edgerton Reporter Suggests a Compromise to the Growers' Association

The Edgerton Reporter suggests a compromise to the Rock County Tobacco Growers' association in this language: "Between lawyers' fees and court expenses what little there is in assets remaining with the Rock County Tobacco Growers' association seems likely to be absorbed. The new complication arising from the annual meeting last week has already got into court and long tiresome litigation seems eminent. No more promising clients can be found than a lot of mad farmers with money to fight in courts and plenty of lawyers can be found ready to urge on the litigation. But why continue such a senseless farce? Why spend good money to secure doubtful victories? Better meet on some ground of compromise and save lawyers' fees and costs is what the hard common sense of uninterested people would advise—and its cheaper advice than that of attorneys, and better too."

With the Regularity of Shuttle, and nearly as swift the trains of the Lake Shore & Michigan Southern Ry. make their trips between Chicago and New York, weaving closer and closer day by day the many mutual interests of these great commercial centers of the United States. Departing from the Van Buren street station, located in the heart of the business district of Chicago and arriving in New York at the Grand Central station, 42nd street the popularity of this line in point of time and convenience is readily understood. It seems almost superfluous to add that for this service the equipment embodies all that is new and modern in the art of car building, apparently nothing that would give one a feeling of safety, comfort and luxury, has been overlooked. The schedule provides morning, afternoon and evening trains. Latest time table with any information desired will be promptly furnished on application. J. R. Hurley, T. P. A., 95 Wisconsin street, Milwaukee, Wis.; C. K. Wilber, Western Passenger Agent, Chicago.

Importance of Healthy Blood.

Every drop of blood that circulates through the veins eventually becomes a solid particle of the body. Flesh, bone and muscle are merely solidified blood, and upon the quality of the blood depends the condition of the whole physical system. Unless the liquid material by which the human substance is renewed and sustained is pure and nutritious, it is impossible that the body can be healthy and strong. One of the most important preparations of Hostetter's Stomach Bitters is that of improving the condition of the vital fluid, when infected or impoverished. Acting directly and powerfully on the stomach, in which the impure nature of the blood is commended, and upon the liver which is the seat of the next in importance to the stream of life itself, this powerful vegetable tonic and diaphoretic has an immense indirect influence upon the circulation. Hence the extraordinary cures wrought by the Bitters in cases of general debility, malarious fevers, rheumatism, biliousness, constipation, &c.

CANDY AND DRUG MEN ARE OUT
May be War to the Knife on Sweetmeats and Medicine.

If, in the course of your permutations around town, you should see a candy dealer and druggist engaged in "getting each other's eyes" after the copyrighted manner of the Hon. Buck McCarthy, don't think it is your human born duty to interfere, because they will be settling a great question and will not appreciate being "taken by the neck."

For a long time back the relations between these two classes of merchants have been very much strained and if things continue as we will probably have a chance to buy sweetmeats and medicines at about half price. The coolness is caused by the fact that the druggists are selling candies. An east side dealer set the pace and the others followed. The result is all the druggists in the city except two now carry a line of candy.

"This has cut into our business," remarked a local candy dealer this morning, "and we do not know just what we are to do in the matter. We may be forced to put in a line of patent medicines and sell them at cost to get even. That is the only way out of it that I can see. Perhaps if we sold all standard remedies for what we paid for them for a time, the druggists might realize what it means to us for them to handle our goods. I do not say that this will be done, but I would not be surprised if it was. Of course the druggists can sell anything that they see fit; we realize that, but so can we. Christmas time is one of our best seasons, and it seems a little hard to have to meet this new competition just now. Most of the druggists have the local agency for some factory in New York, Chicago or Boston."

HARD TO HANDLE THE CARS.

Slippery Rails Make the Motor Man's Job

a Trying One.

People who drive these slippery days should keep a sharp lookout for the street cars, for it is hard work for a motorman to stop the car, especially when descending hills. Last evening as a car was coming down the grade near the power house, the rails being slippery, the setting of the brakes had but little effect, and the car went through the railroad gates. No damage resulted.

Few men are better posted on the money value of a nomination than ex Secretary Whitney. That's why he doesn't want the democratic presidential nomination.

If it be true that a man has agreed to pay Senator Hill \$1,000 to deliver a lecture, that man must either have money to burn or be a very poor judge of lecturers.

While Mr. Cleveland is hunting for ways of regaining the good opinion of the country, he should not overlook the recall of Ambassador Bayard.

Ex-Governor Campbell was in Washington the other day, but he didn't call at the white house to explain why he wasn't elected governor of Ohio.

No, his name isn't Thomas Backbone Reed, but his record would excuse any one for thinking it was.

Once in a While.

And only once in a while—were we reminded of a story which we heard some time ago. It concerned a woman—a plain, everyday, bargain-hunting, getting-much-for-little sort of a woman, and a lot of canned goods. There was a fire sale of grocery stock, including the canned goods. The latter, embracing corn, and peaches, and pears, and peas and tomatoes, and so forth, had the labels all washed off during the fire, and were sold at four cents a can. It was a clear case of going it blind, with a fair field and no favor.

Well, anyhow, the woman bought freely of the batch. But when she came to use the goods at home, there was trouble. If she wanted peaches she was sure to open up a can of peas, and if she went on the still hunt for peas she was certain to raise corn. And so it went on all through the list. No matter what she wants she was sure to get something else—and it's a good deal the same way with shoes. Some people would rather have a nameless unknown brand, and take all the chances than pay a fair living price for a superior article like Richardson's solid shoes. Which plan do you practice? A. Richardson Shoe Co.

Soap as a Microbe Killer.

A RELIABLE PILE CURE.

The Pyramid Pile Cure is the safest and surest pile cure on the market, because it contains no mineral poisons nor opium nor cocaine, but can be used with absolute safety and certainty of cure.

Many physicians are now using the Pyramid Pile Cure in place of surgical operations, being painless, convenient to use, and the patient can attend to his daily occupation while the cure is being made, as it is used at night and no additional treatment is necessary.

Dr. Wharton says the Pyramid Pile Cure will prove a blessing to mankind, when it is remembered that heretofore a surgical operation was considered the only cure with all its danger to life, intense pain and an expense of from ten to one hundred dollars, to say nothing of the possible return of the trouble. The Pyramid Pile Cure is sold by druggists at 50 Cents and \$1.00 and does the work quickly and safely.

A book on cause and cure of piles will be mailed free by addressing Pyramid Co., Albion, Mich.

REVIVAL MEETINGS
ARE TO CONTINUE

ANOTHER WEEK OF EVANGELISTIC WORK.

Christ Church Cadets To Be Recognized and the G. A. R. and Light Infantry Invited to the Service—Thanksgiving Day Services—Topics Selected By Various City Pastors

SUNDAY services in Janesville churches will be of unusual interest tomorrow. At the First M. E. church the pastor will preach both morning and even-

ing but this will not interfere with the revival services at that church, which are still in progress with encouraging results and prospects. Mr. Manaton continues with the pastor and he is proving himself to be "a workman that needeth not to be ashamed." He is doing a good work in urging the importance of beginning a Christian life, and directing seekers to Jesus Christ as the only Saviour from sin.

Mr. Landis who has recently come to the city has rendered valuable aid in the meeting during the past week in leading the singing. A number of the pastors of the other churches of the city were present on Monday evening, and gave the people much encouragement in the work by their earnest prayers for the success of the movement.

There will be service every evening next week except Saturday and everybody is cordially invited to attend.

The service of installation of officers and recognition of members of Christ Church Cadets will be held in Christ church tomorrow (Sunday) evening, at 7 o'clock. The service is open to all but a special invitation is extended to the parents of the boys, the honorary members, Post 20 G. A. R., the Janesville Guards and all who are interested in the moral welfare of young men to be present. This will be the first public appearance of the Cadets. The roster of the company shows forty-three enrolled among the active members and an honorary membership of sixty-one, the latter embracing many of the leading citizens of Janesville. A large congregation should greet and encourage the boys.

Other religious announcements are as follows:

CHRIST CHURCH—Sunday next before Advent. Celebration of the Holy Communion at 8 a. m. Sunday School at 9:30 a. m. Morning service and sermon at 10:30, Sermon topic, "The Close of the Year." Service of installation of officers and recognition of members of Christ church cadets.

Thursday, Thanksgiving day with celebration of the holy communion at 8 a. m. and union service with sermon by the rector of Trinity church at 10 a. m. Friday evening service and address at 7:15.

ALL SOULS, THE PEOPLE'S CHURCH—Regular Sunday service at 10:30 a. m. Open and free to all. Thanksgiving sermon, subject, "Divine Providence and Human Improvidence."

Is there such a thing as "special providence?" Does God interfere with the laws of cause and effect? What is the meaning of Thanksgiving? School for religious culture meets at 12:15. Culture Club meets at 5 p. m. Subject for study: "The Religions of Ancient America."

COURT STREET M. E. CHURCH—Rev. S. Halsey pastor. Services at 10:30 a. m. and 7:00 p. m. Sunday School and class meeting at 12. Epworth League at 6 p. m. Morning subject, "The Magnetism of Christ." BOY SKATER DROWNED

JOHN BARRON FALLS THROUGH
THE MONTEREY ICE.

John Barron, a boy about sixteen years of age, was drowned near the "big rock" in Monterey at 4:30 this afternoon.

He was skating with a number of others and the ice gave way beneath him. Nothing could be done to get him out because of the frailness of the ice.

The body was recovered about half an hour afterward and taken to the home on Cherry street.

COASTERS ARE HURT
IN A COLLISION"BOB" RAN INTO A TREE LAST
NIGHT.

Mrs. T. W. Goldin Received a Cut On the Head and Painful Bruises While Miss Ella Barker's Ankle Was Sprained and Herbert Goldin's Knee Contused.

The first coasting accident of the season occurred last night, and as the result Mrs. T. W. Goldin and Miss Ella Barker are confined to their homes today suffering from injuries which are painful although not dangerous.

Little Herbert Goldin had several times invited his mother to take a ride on his "bob," and last night she and Miss Barker consented. They started from the court house to slide down the concrete sidewalk, and on the first trip, accidentally turned the sled over. The next time they thought they would be more fortunate.

But they were not.

They started the "bob" at the court house as before, and all went well until they were nearly at the bottom of the hill. Then one of the sled runners cut through the snow, and as it grated along on the concrete the course of the "bob" was deflected toward the edge of the walk. An instant later the outfit crashed into a large tree at the foot of the hill, and the coasters were tumbled head over heels in the snow.

Both Ladies Injured.

M. G. Jeffris, who was on his way home, saw the accident and hurried across the street. Mr. Goldin had also been an eye witness, and he lost no time in reaching the scene. Mrs. Goldin and Miss Barker were assisted to their feet, and it was found that the former had escaped with a cut on the head and minor bruises. Miss Barker was not so fortunate, as her ankle had been quite severely sprained, and she had also received bruises. Herbert Goldin's knee had been injured somewhat, and immediately began to swell, but none of the injured ones had been seriously hurt.

"It was a very close call for a bad accident," said Mr. Goldin this morning. "I think that the 'bob's' speed was lessened when the runner cut through the snow; otherwise some of them would have been seriously hurt, as there wasn't enough of the front sled left to hold a post mortem on."

ROCK COUNTY SUITED

The Turner Apportionment Endorsed by Republicans.

The Turner's apportionment was endorsed by the Rock county republican committee this afternoon.

Among those who attended the meeting were Cham Ingersoll of the state central committee, E. F. Hanson, S. S. Jones, C. E. Lee, W. V. Clark, O. F. Nowlan, F. W. W. Coon and W. F. Williams. W. T. Vankirk presided. On motion of C. E. Lee of Evansville, the Turner apportionment was endorsed. The vote was unanimous.

H. Buchholz was recommended as successor to R. O'Donnell in the office of coroner. Several vacancies in the county committee were filled.

FREIGHTS DELAY PASSENGERS

St. Paul Trains Were "Stalled" In Several Places Last Night

St. Paul passenger trains were nearly all late last evening on account of freight trains. Engineers said that freight trains were stalled between this city and Milton, and also near Edgerton and in several instances took two engines to move them.

THE FOLKS WHO COME AND GO

THE AMERICAN RUSH.

Diseases Caused by Too Much Hard Work and Worry.

They Wear Out the Kidneys.

Why Americans Are More Nervous, Anaemic, and Suffer More From Bright's Disease Than Other Nationalities.

Rush and Worry Our Bane.

The Kidneys and Their Clogging Caused by Overwork and Worry.

Care and Cure of Clogged Kidneys.

We are an overworked nation. We get through a great deal of work. We do more, and work harder and faster than any other nation on earth.

And that is the trouble.

We work too fast, think too fast, eat too fast.

We don't take enough rest.

Nemesis overtakes us and disorders our kidneys. Nemesis the goddess of vengeance. Nature revenges herself if you overtax her.

Why do we get sick in our kidneys? It's simple enough to explain and to remember.

Our kidneys were made to filter our blood. That is the first thing.

Every drop of blood that passes through our body has to go these filters and be purified.

All work uses up blood. That is the next thing.

Blood is fuel. If we work one organ (the brain, stomach, arm, leg), more than another, blood rushes to the hard-worked organ, to nourish it and strengthen it.

Too much work of any kind uses too much blood and strains the kidneys so much that it hurts them. That is the next thing.

Strained kidneys are sick kidneys. Sick kidneys don't filter the blood. And this is the end of it.

To be well we must live naturally—get well when sick take Dr. Hobb's Sparagus Kidney Pills.

Living naturally doesn't mean doing without comfort, but not overdoing anything—not over-working, not over-thinking, not over-worrying, not over-eating—not over-straining our kidneys.

It is not so simple to remember that if our blood is kept pure we can keep almost perfectly well; so easy to take care of ourselves if we want to.

But when we are sick it is well to know of something that will make us well.

The cure for all kidney and blood troubles is Dr. Hobb's Sparagus Kidney Pills.

They are a simple and perfect cure for Bright's disease, diabetes, nephritis, cold in the kidneys, for the symptoms of sleeplessness, backache, sideache, nervousness, frequent thirst, chilly sensations, evil forebodings, puffiness and swelling of the eyelids, feet and ankles.

By nourishing and gently toning up the kidneys and curing them of all that would clog them and prevent them from filtering, Dr. Hobb's Sparagus Kidney Pills will cure all disorders of impure and poisonous blood, such as rheumatism, gout, neuralgia, anaemia, thinness of the blood, muscular weakness, depression of spirits, shortness of breath, etc.

A few doses will relieve. A few boxes will cure.

Dr. Hobb's Sparagus Kidney Pills are made principally from the root of the asparagus by a special process which extracts all the virtue in the root. They are perfectly harmless, purely vegetable, and are strongly recommended by physicians of high standing as well as by all who have used them.

Sold by all druggists or mailed prepaid for 50 cents a box.

A free book about the kidneys, "A Filter for Your Blood," illustrated, mailed on request. Hobb's Medicine Co., Chicago or San Francisco.

A Cable Quarrel.

The cable was once the medium for a lovers' quarrel, which took place between a lady in New York and a gentleman in France. The heroine was no other than that divine French artiste whose genius we all admire. The gentleman was a dramatic author, now no more. This curious quarrel took place one Sunday, the cable being joined through direct. It bristled with passionate reproaches, bitter, stinging sarcasms, couched in picturesque French. The scene was intensely dramatic. Both the actors, so near and yet so far, trembled with jealous passion as their bitter sarcasms were flashed through the coils of this gigantic sea serpent. Mutual complaints, reproaches and threats continued, until a last stinging sarcasm from France reduced the excitable artiste to a state of nervous excitement which culminated in hysterics. The cable was then restored to its normal condition and the artiste to her senses.—London Standard.

Blouses Becoming Blaze.

Don't indulge too heavily in—first, crepons; second, balloon sleeves, and third, blouses. The first may, perhaps, be eclipsed by alpaca and mohair; the second are about to contract, and the third are almost unnoticeably beginning to get blaze. The blouse has reigned exclusively for so long that people look around for a change, and the tight-fitting waist and blouse may probably supplant it.—Ex.

ELECTRICITY IN THE HOME.

In Its Various Appliances It Will Relieve Women from Much Drudgery. A new goddess is born. She is called "Electra." She is the goddess of all work. She is swifter than Mercury and brighter than the star of the morning. On her brow is a blaze of jewels; she carries a flametipped wand. Her garments are of woven rays of light, garlanded with flowers, red, blue and green.

She comes to unbind burdens, to succor women and horses. There is no service so exalted that she cannot attain it; no service so lowly she will not stoop to it. She will light the kitchen fire and cook the breakfast. She will wash the dishes and scrub the floors. She will curl and brush the hair. She will sweep the room and run the sewing machine. She will run errands and draw the cart. She will pull and fill the teeth, be the physician and put the weary to sleep. She will play on the piano or the washstand as desired. She will amuse the children or entertain the company. She will tend door or convene the elements. She will manufacture climate to order and bring Alpine blasts in midsummer to a city flat. The most interesting development in domestic life with which women have to deal is cooking by electricity. Every woman knows that the kitchen range is the real hub of the universe. So long as that runs smoothly, dynasties may change and nations go under with comparatively little stir. A change of fuel is a more serious experiment than a change of sect or party. The first thing that commands electricity to a woman is its cleanliness. For this gas has prepared them somewhat. But even with gas the products of combustion still oblige the washing of the outside of the platters. In cooking by electricity there is no combustion. The heat is merely localized. This distinction is radical and affords the most curious and interesting feature of the new process. To cook without flame contradicts the most familiar of all arts. In getting rid of combustion goes with it all that accompanies combustion, including that exhaustion of the air, of which everyone complains, for in the domestic economy health is next to cleanliness.

A PRETTY PICTURE.

Two Little Children Made Strong and Well By Dr. Greene's Nervura.

The Mother Also Restored to Health by That Grandest of All Medicines, Dr. Greene's Nervura Blood and Nerve Remedy.

MRS. H. SILVER'S LITTLE ONES.

Strong, vigorous and healthy children are what we all want, and how to keep our children in good health is a question of much interest to us all. Children are peculiarly liable to nervous diseases; they become nervous, restless, fretful, cross and irritable; their night's sleep is not calm and restful, but they toss restlessly from side to side, murmur and talk in their sleep and wake tired and unrefreshed in the morning. They have an irregular appetite, grow thin and

and that bounding health and vitality, which all children should have. It is perfectly safe to give to children of any age, and its curative and restorative effects are wonderful.

Mrs. H. Silver, of 142 Lewis street, New York City, was not only restored herself to health by Dr. Greene's Nervura blood and nerve remedy, but her two children, whose portraits are here given, were made strong and well by this grand medicine. Mrs. Silver says:

"I was nervous for four years so that I could do nothing. I went to different doctors but none could help me. I read so much in the papers that about Dr. Greene's Nervura blood and nerve cure that I thought I would try it. After the first bottle I felt relieved, so I used a couple of bottles more and now I am all right again and thank Dr. Greene's Nervura for the good it did me.

"I also had two little girls who were sick and weak and run down; to whom I gave Dr. Greene's Nervura blood and nerve remedy. It did them so much good that I cannot be thankful enough. It made them well and strong again, and they are now thanks to this wonderful remedy, healthy and vigorous. Before I took Dr. Greene's blood and nerve remedy I could not eat or sleep. I could not do my housework but am now like a different woman. I give this testimonial that other sufferers may read and know the good Nervura did me and my children.

Use Dr. Greene's Nervura in all nervous diseases of infants and children, and see them improve in health and strength every day and hour.

If your children are sick, give them that greatest of all children's remedies, Dr. Greene's Nervura, the great nerve and blood invigorant and health restorer. This wonderful remedy, is above all, a family medicine, and its name is a household word in thousands of homes all over the land. It is made from pure and harmless vegetable remedies, is calming, soothing and healing the nerves, and at the same time strengthens and invigorates the entire system, restoring a healthful color to the cheek, refreshing sleep, strong nerves, stout limbs

THE MAN AT THE LEVER.

How a Locomotive Engineer Acts When Running a Very Fast Train.

The locomotive engineer is a remarkably placid fellow, with a habit of deliberate precision in his look and motions. He occasionally turns a calm eye to his gauge and then resumes his quiet watch ahead. The three levers which he has to manipulate are under his hand for instant use, and when they are used it is quietly and in order, as an organist pulls out his stops. The noise in the cab makes conversation difficult, but not as bad as that heard in the car when passing another train, with or without the windows open, and in looking out of the engine cab the objects are approached gradually, not rushed past, as when one looks laterally out of a parlor car or window. The fact is that the engineer does not look at the side—he is looking ahead—and therefore the speed seems less, as the objects are approached gradually.

Those who have ridden at ninety miles an hour on a locomotive know that on a good road (and there are many such) the engine is not shaken and swayed in a terrific manner, but is rather comfortable, and the speed is not so apparent as when one is riding in a passenger car, where only a lateral view is had. The engineer can be very comfortable if he is quite sure of the track ahead, and it is only in rounding curves or in approaching crossings

that he feels nervous, and it is doubtful if it is any more strain to run a locomotive at high speed than to ride a bicycle through crowded thoroughfares. Judging by the countenances of the bicycle rider and the engineer, the engineer has rather the best of it.

Don't.

Don't snub a boy because he wears shabby clothes. When Edison, the inventor, first entered Boston, he wore a pair of yellow linen breeches in the depth of winter.

Don't snub a boy because of the ignorance of his parents. Shakespeare, the world's poet, was the son of a man who was unable to write his own name.

Don't snub a boy because his home is plain and unpretending. Abraham Lincoln's early home was a log cabin.

Don't snub a boy because he chooses a humble trade. The author of the "Pilgrim's Progress" was a tinker.

Don't snub a boy because of his physical disability. Milton was blind.

Don't snub a boy because of dullness in his lessons. Hogarth, the celebrated painter and engraver, was a stupid boy at his books.

Don't snub a boy because he stutters. Demosthenes, the great orator of Greece, overcame a harsh and stammering voice.

LADIES' RAZOR TOE RUBBERS only 35 cents at Brown Bros. & Lincoln's.

Only One Fault.
Mrs. Hashleigh (the boarding house lady)—Such a gentleman that Mr. Firstfloor was! Never complained if he had no towels, never sneered at the rice pudding or made remarks about the napkins. But for one great fault I'd never have let him leave the house. Fourthfloor—Oh, he had a fault, had he?

Mrs. Hashleigh—Yes, he thought if he sat about and praised things it wasn't necessary to pay board.—Erie Messenger.

He Had No Case.
"No," said the lawyer decidedly after the negro had told his story, "you have no case at all. You went to hear Miss Henriette Dresser play Juliet and were thrown out of the theater on account of your color, but you cannot claim damages. If you had been obliged to remain I would take your case and sue for not less than \$20,000. I have heard her myself."—Chicago Evening Post.

The True Philosopher.
You may know all the stars;
Clear from Neptune to Mars;
You may have every science by heart;
Be up in each ism
And versed in each schism—
In short think you're fearfully smart;
And though you impress
Common minds more or less,
You are not a philosopher till,
Casting learning behind,
The true secret you find
Is to look very wise and—keep still.—
L. A. W. Bulletin.

SERIOUS BUT NOT CONTAGIOUS.

Liz—Say, Mag, do you know 'im? Mag—Naw, his family just moved inter our alley last week—but his ma told de neighbors dat he is interleekshul; nobbody knows wat dat is, but it must be a turrible painful disease, from de looks of him.—Truth.

OF TWO EVILS.
There is a welcome quiet in the block across the way—
We do not hear the piano-forte a-jingling night and day;
The girls now wear another set of petticoats up and down—
We have a respite since the cycle-craze has come to town.—
Anna B. Patten, in Judge.

THE CLERK COULD GO TO BED.

A countryman and his son "put up" at a city hotel. (Son out seeing the town. Old gent comes down from his room at midnight and says to the night clerk:)

"Has my son come in yet?"

Night Clerk—Guess not. Haven't seen him.

Old Gent—Well, you needn't set up for him any longer.—Texas Siftings.

AND SHE BELIEVED HIM.
She—I don't see why you will keep on paying 15 cents for cigars when you can get one just as pretty for five.

He—I know they are just as pretty, but those five-cent ones are cigars that have soured. You wouldn't buy sour fruit just because it was cheaper, would you?—Indianapolis Journal.

RATHER OLD.

"Papa," said Jimmie boy, "you are the nicest man in the world."

"And you are the nicest boy in the world," said his father.

"Yes; I guess that's so," said Jimmie boy. "Isn't it queer how we both managed to get into the same family?"—Harper's Round Table.

Two New York Cloak houses

with Chicago offices where they displayed their entire sample lines being through with their season and not wanting to pay express charges on the garments to New York, offered them to us at a liberal discount and always on the lookout for snaps, we were right there and made the deal with both for the entire lines. These garments were made up to show to the best merchants in the west, and were made particularly well, not one but what is right in every way. They were never handled on the road, but have only been shown in Chicago and are therefore in better shape than would be the case with those made up now in the mid-season rush. They are in stock today and comprise many exclusive styles not seen heretofore in ladies' and misses' jackets, in boucles, cheviots, kerseys; also plush and cloth capes and fur garments.

Don't buy a cloak of any kind until you look here where we positively guarantee to save you one-third.
